Description

THIS IS NOT A FORMAL REQUEST FOR PROPOSAL.

This synopsis serves to provide notification for the upcoming solicitation for Counter Nuclear Smuggling System Deployment services. The Nuclear Smuggling Detection and Deterrence Program coordinates with host governments to deploy counter nuclear smuggling systems for operation by those partner agencies and has expanded to more than 80 countries. Contractors will be responsible for providing design, integration, construction, communications, logistics, training, and equipment procurement to support the deployment of counter nuclear smuggling systems for a 7-year ordering period (3-year base period and two 2-year option periods) Multiple Award IDIQ in accordance with project Statement of Work.

The North American Industry Classification System (NAICS) code for this project is 541990 (All Other Professional, Scientific, and Technical Services). The IDIQ contract will have a ceiling of \$800,000,000.00. Contractors must have the capability to perform the entire scope of work specified within the Statement of Work. Due to the broad scope of work, joint ventures or other teaming arrangements are anticipated and encouraged.

The complete solicitation package, which includes the project plans and specifications, will be made available only through the System of Award Management (SAM) website at sam.gov. Anyone wishing to participate in this proposed procurement must obtain their copy from the internet. Copies will not be mailed from the Contracting Office. All amendments will be posted on sam.gov. Contractors will be solely responsible for obtaining amendments from this site to update files. This project will be solicited as a full and open competition (at least 2 anticipated awards). The master contract will be a hybrid IDIQ and include contract line items for Cost-Plus Fixed Fee (CPFF) and Firm-Fixed Price (FFP) orders. Award will be made in accordance with the source selection trade-off procedures established in FAR 15.101-1(b)(2), in which the solicitation will specify whether all evaluation factors other than cost or price, when combined, are significantly more important than, approximately equal to, or significantly less important than cost or price.

Anticipated issue date for the final request for proposal (RFP) will be February 2023 and will be posted via sam.gov.

Notice to Offerors:

NOTICE TO OFFERORS:

NOTE 1: All prospective contractors must be registered in the SAM website at sam.gov before award of contract; failure to register in the SAM database will cause your firm to be ineligible for any future award.

NOTE 2: "Notice to Offerors: Funds are not presently available for this effort. No award will be made under the subsequent solicitation until funds are available. The Government reserves the right to cancel the subsequent solicitation, either before or after the closing date. In the event the Government cancels this solicitation, the Government has no obligation to reimburse an offeror for any costs."
